

## TEHCNICAL DATA SHEET

### UNIVERSAL CLEANSER

#### **Presentation, fact sheet and instructions for use**

#### **Product Description:**

**Nano Protection** UNIVERSEL IS a highly effective cleaner.

Its innovative micro-division effect allows for complete cleaning without assaulting surfaces. The product is used final preparation of surfaces (such as crystallized marble) which will then be treated with some nano products. UNIVERSEL CLEANSER is also the only cleaner suitable for treated surfaces with a nano product.

**Agents:** A watery salt solution containing less than 10% food grade phosphate.

**Smell:** No.      **Color:** Colorless.

#### **use:**

**Application conditions:** Apply the product at temperatures ranging from 5 to 30 degrees Celsius. Do not treat in full sun. Treat in small areas if temperatures are 30degrees. Don't deal with below 0oC. The product must be applied in conditions of air humidity and temperatures Normal.

**Surface preparation:** The surface must be freed from any coarse and visible pollution, such as impurities, traces of limestone and dirt.

**Tips for use: NanoProtection** UNIVERSEL NETTOYANT is the cleaning pre necessary for preparation of surfaces receiving plastic and anti-rain helmets treatments. Shake well before use. Simply spray UNIVERSEL NETTOYER on the surface to be cleaned, let it work for a moment then rinse with a cloth saturated with water or with plenty of water if the environment allows. Dry the surface. Once the surface has been cleaned, do not touch it with your fingers, or bring it into contact with water if a nano treatment is going to be applied.

**Amount of use:** About 10-20ml /m2

**Drying time:** With temperatures of 30oC, the product dries quickly (about 30 sec).
